

Driving restrictions, goods transport 2012 (Source: IRU International Road Transport Union)

Sweden

There are no driving restrictions on goods vehicles at weekends or on public holidays.

However, according to new environmental regulations introduced in Stockholm, Göteborg, Malmö Lund, Helsingborg and Mölndal, diesel-engined vehicles of over 3.5t GVW, which were registered for the first time before 1993, will not be permitted to enter the zones covered by the legislation. For further information on this topic, please see the file on low emission zones in Sweden.
